PROFILE

Results-driven Frontend Engineer with over 2 years of hands-on experience optimizing frontend applications for responsive design, SEO, and enhanced site performance. Eager to contribute to high-performing teams by delivering scalable, user-focused designs that fuel business growth and drive measurable success.

EDUCATION

Federal University of Abeokuta:
BSc. in Physics,
Oct 2020 – Jul 2025.

WORK EXPERIENCE

FRONTEND DEVELOPER | STAYTROVE - AUG 2025

[Project Link](#)

- Translated Figma/UI designs into pixel-perfect layouts using modern frontend technologies, maintaining brand consistency and visual precision.
- Collaborated with the design and product team to deliver a user-friendly and intuitive interface that aligned with company branding
- Applied version control (Git/GitHub) to manage codebase changes and contribute effectively to the development workflow.
- Utilized TailwindCSS for efficient styling and rapid prototyping, improving development speed and maintainability.
- Developed a responsive web application (Landing Page, Terms & Conditions, Privacy Policy) ensuring seamless performance across desktop, tablet, and mobile devices.

FRONTEND ENGINEER | VORTEXCORE – FEB 2025

[Project Link](#)

- Built and styled a fully responsive interface with Tailwind CSS and media queries, ensuring seamless user experience on all devices.
- Developed animated hero sections with strategic CTAs, increasing user engagement and click-through rates.
- Structured clear, SEO-friendly service pages highlighting company offerings, improving discoverability and navigation.
- Integrated backend APIs for dynamic, real-time content updates, enabling users to contact the company directly.
- Optimized performance through lazy loading, image compression, and accessibility compliance, reducing load times and improving usability.

STANBIC IBTC BLUE INTERN | JUL 2024 – OCT 2024

- Assist in preparing market research reports and daily stocks market summaries with an in-house software.
- Opening of accounts for users seamlessly provided that the correct and necessary information is provided during KYC.
- Assisting in testing and providing feedback on updates on Stanbic IBTC Stockbrokers online trading platforms.
- Help in updating client investment portfolios and maintain client databases.
- Support analysis in tracking stock performance and analyzing financial statements with a software called INFOWARE.
